

Sophie, Pay Attention (Rhoda, You Too)! (Kingdom Kids Book 1)

Hi! Im Sophie, and Im 8 years old. I love my family, Jesus, and my pet rabbit. But sometimes I think its hard being the youngest in the family. Maybe the others dont always take me seriously, or maybe they get upset when I forget things (like my math homework!). I used to feel bad about that, but then one day my Sunday School teacher told me the story of Rhoda, a girl from the Bible who sounds like she was living my life! Rhodas story made me think maybe I could look at things differently. Now, can I convince my family to look at me differently too?

***** Sophies story will resonate with any child whos struggled with remembering, paying attention to schoolwork when whats around her is so much more interesting, and with trying to do whats right. The story is an early chapter book, a la Junie B. Jones, with a Christian perspective. Sophie is a witty, gentle, and caring heroine who children will relate to. Perfect for ages 6 to 9.

***** How refreshing to encounter a stable family unit, not perfect, but supportive; children that obey their parents without bad attitudes, deceit or manipulation; parents who take the time to love and discipline their children appropriately; and teachers that teach children rather than subjects. I especially appreciated the way the girls faith was handled, as a natural part of her life, with Scripture being a viable way to learn and grow. All this in a delightful story, perfect for beginning readers as well as those who enjoy being read to.

- Associated Content I have been a long-time advocate for Christian childrens fiction written for this age group so its refreshing to see another book geared toward this particular

audience. Plus the story has a good
takeaway value without being preachy. -
