

A Brief History of the American Turnerbund (Classic Reprint)

Excerpt from A Brief History of the American Turnerbund It has been justly said that the North American Gymnastic Union, although in existence for over sixty years and always taking an active interest in public affairs, as a national organization has kept its light under a bushel. The reason for this may chiefly be found in the fact that the official language of the Turners was the German language, the furtherance of which had always been one of their aims. The Executive Committee of the Gymnastic Union is of the opinion that the history of the Turnerbund is of sufficient interest to warrant its publication in book form. The history was written by Henry Metzner of New York, who has been identified for over half a century with the Turner organization. The translation from the German was made by Theodore Stempfel, Jr., of Indianapolis. The article on the influence of the Turners on gymnastics in public schools was contributed by Wm. A. Stecher, director of physical training in the public schools of Philadelphia. It seems appropriate to publish the book at this time, as the year 1911 marks the one-hundredth anniversary of the opening of the first Turnplatz in Berlin. This may well be regarded as the real beginning of the playground movement, which in late years has also taken root in this country.
