

Morphological Atlas of the Dutch Dialects (MAND): Volume I: Plural Formation of Nouns, Formation of Diminutives, Gender Nouns, Adjectives and Possessive Pronouns

The first linguistic research resource of its kind, this atlas tracks differentiations in word formation in Netherlandic and Frisian dialects spoken in regions of the Netherlands and Belgium. The volume explores the plural formation of nouns, the formation of diminutives, and the gender of nouns, adjectives and possessive pronouns. It will be an essential resource for students and scholars of the Dutch and Flemish languages and their dialects.
