

Almost Heaven

Before his thirtieth birthday Holden Garfield has already burned out as a journalist in war-torn Bosnia. Returning to the United States, he hopes the familiar sunshine and rolling hills of Virginia will help him put aside the horrors he reported. Instead he finds Melanie, his mentors sister, who is institutionalized with a mysterious amnesia after her husband and son were killed five weeks earlier by a freak force of nature. Struck as if by lightning by her beauty, Holden sets out to help her reconstruct her past, and the pair is swept up in a passionate love affair -- one fighting to remember, the other struggling to forget. With this breakneck story of love and loss, Marianne Wiggins delivers a compelling novel that is a series of powerful metaphors for the curative forces of love as well as her own personal love letter to the American South.
