

## Father of the Year

Entrepreneur Will Stoner was a competent executive, but when he became guardian to the son he'd never known about, Will did the only thing he could do: he hired help. Dena Foster did a great job with his son. Her gentle ways took the trepidation out of parenting, and despite a bad marriage that made Will mistrust women, he warmed to Dena. Now he wanted more from this nurturing beauty for himself. First he had to erase the doubt he saw in Dena's eyes about his feelings for her. Was being a successful businessman, caring father and loving husband too much to ask for?
