

Trees, Knots, and Outriggers: Environmental Knowledge in the Northeast Kula Ring (Environmental Anthropology and Ethnobiology)

Trees, Knots and Outriggers (Kaynen Muyuw) is the culmination of twenty-five years of work by Frederick H. Damon and his attention to cultural adaptations to the environment in Melanesia. Damon details the intricacies of indigenous knowledge and practice in his sweeping synthesis of symbolic and structuralist anthropology with recent developments in historical ecology. This book is a long conversation between the authors many Papua New Guinea informants, teachers and friends, and scientists in Australia, Europe and the United States, in which a spirit of adventure and discovery is palpable.
