For an explanation of the allusions in the present Tale, scarcely any Notes are necessary, save a reference to the bewitching Chronicle of Froissart; and we cannot but hope that our sketch may serve as an inducement to some young readers to make acquaintance with the delectable old Canon for themselves, undeterred by the size of his tomes. The story of Orthon is almost verbally copied from him, and bears a curious resemblance to various German legends - such as that of Heinzelman, to be found in Keightleys Fairy Mythology, and to Teague of the Lea, as related in Crokers Irish Fairy Legends.
