

## Broken Perfection

Twenty-seven year old Reese Turner has a great job, great friends and all around great life. Not wanting anyone to penetrate the carefully constructed walls around her heart, she prefers the casual company of a man over the entanglement of a relationship. Until she walks into the grand opening of Nashville's new hot restaurant, Forty-One. Owner of David Enterprises, James David tops most of the wealthiest, youngest, most successful not to mention best looking lists published each year. Sitting atop of a close to a billion dollar record production company, he's used to calling the shots. Until he meets Reese Turner. After one meeting, he decides his Nashville home is far more appealing than his Manhattan penthouse. Spending his days in his Nashville office, he's determined to spend his nights with Reese. She recognizes the danger to her heart and knows she should run the other direction, but there's something beyond his piercing blue eyes that draw her in. After a few chance meetings, he insinuates himself into every facet of her life with his no nonsense take charge personality. With her reluctance shattered she learns quickly there's no chance of remaining intact in the end. But who said anything about an end?
