

## Some Noble Sisters (Interesting Ebooks)

Example in this ebook While the world abounds with records of noble lives prominent in almost every station and department, thereby as examples affording stimulating incentive to high endeavour, there is one sphere of action which has, perhaps, not received due recognition that of Influence. This moral force forms one of the most powerful factors in the development of character and the conduct of life. And whatever may be the varied opinions as to the political and civic rights of women, it cannot be doubted that they have a mission in the world, and that a mighty one. This province of influence is peculiarly their own, quite irrespective of age or degree, and is absolutely limitless in its power and extent. Where we may endeavour to drive or even to lead in vain, influence, with subtle tact and potent sway, may, like a gracious Divinity, become an unseen but pervading power, restoring, controlling, directing those who come within her realm. And while the gentler sex exercise this sovereign dominion more especially in the familiar arena of Home, where each affinity affords its own occasion for the exercise of that form of power befitting those who come into contact with each other, no relation in life can be greater in opportunity for beneficial influence, or need be richer in result, than that arising from the sweet bond existing between brother and sister. The natural tie, strengthened by the companionships of rosy childhood, cemented during years of youthful growth, prepares a fitting soil for life's seed-time, fit subjects for affections persuasive sway. Each stage of their undivided lives adds to that store of mutual memories and loves, which gives to after life such a charm, importing therein The cloistered memories of youth. Approaching thus her womanhood, a girl having brothers to whom she is thus bound by the sanctities of the home life, has their future weal in no small measure within her

power. Unusual talent, if not genius, is frequently found to have distinguished various members of a family. The reason is not always to be found in heredity. Where one has early shown an aptitude for a particular pursuit, or become absorbed in a certain mental recreation, a brother or a sister, animated in the first place by love, has become interested in the others work. From sympathy they pass to mutual labour. The worker is stimulated and helped, and love itself is strengthened. Kindred aim leads to kindred thought, oneness of purpose to oneness of heart. Each acts as an aid to the other. Their work becomes the better for their love, And still their love the sweeter for their work. To be continue in this ebook.....
