

Morne: The Structure Chronicles

When Lucienne, First among Stealers wants something, hell do anything to make it happen. Kidnap, murder, die, even become a god. Twins, Aleah and Astalin Kamutec, youngest of the Prime Lord of Iantii family are fostered with the lord of Morne to complete their education, when an accident befalls Aleah and her memory of it is lost. But there is something else in its place. Something cold, dark and evil which threatens to control the gentle girl. When Saybels envoy to the world of Iantii, Nightlord Tarik al Fidhala, finds the dark in Aleah, he thinks he knows exactly what it is. But should he fight alongside the twins against it. Or follow his heart and join it? Meanwhile on Anraun, the first battle with the prison world of Danaach is about to be fought, although unbeknown to the combatants there is someone spying on them. Someone who would be a god. Its a busy business, being a god, as Lucienne finds out, and sometimes plans go awry.
