

Problems of City Government (Classic Reprint)

Excerpt from Problems of City Government
The purpose of this volume is to present an analysis of the general principles involved in city growth. The rapid development of our large cities has a far deeper significance than the administrative problems which they present. Profound changes in social structure are directly traceable to the increasing aggregation of population. In this volume an attempt has been made to ascertain the nature of these changes. My thanks are due to Mrs. Morris Jastrow, Jr., for the careful reading of the manuscript. I also desire to express my obligation to my colleagues, Dr. Simon N. Patten, Dr. Emory R. Johnson, Dr. James T. Young, Dr. William Draper Lewis, and Mr. Murray Gross, for many kindly criticisms and stimulating suggestions.
