

# UAI 02: Proceedings of the 18th Conference in Uncertainty in Artificial Intelligence

Proceedings of the annual Conference on Uncertainty in Artificial Intelligence, available for 1991-present. Since 1985, the Conference on Uncertainty in Artificial Intelligence (UAI) has been the primary international forum for exchanging results on the use of principled uncertain-reasoning methods in intelligent systems. The UAI Proceedings have become a basic reference for researchers and practitioners who want to know about both theoretical advances and the latest applied developments in the field.
