

DESPERATE MOTHERS

It is impossible to read this historical novel without cringing and feeling a deep sense of shame at the way Victorian Society treated the Unmarried Mother and her so called, Bastard Child. It was an age of prosperity and optimism, but for many, life was little more than a never ending misery.

Thrift, hard work, religious and moral piety was firmly established as true Victorian values, but hypocrisy reigned supreme. In this society, women were not supposed to have sexual impulses and young unmarried ladies were expected to remain in a state of simpering virginity. Sex outside of marriage was considered a deadly sin and those who violated this rule were fallen women; their children born in sin and marked for life. Respectable parents constantly warned daughters of relationships that would lead them to a Fate worse than Death. Abandoned by parents and ostracised by society, their only options were the workhouse, prostitution or dangerous back street abortions. From this hotbed of hypocrisy, emerged a woman who would become a Fearful Product of the Times, and the society that so condemned the unmarried mother, and did little or nothing for the unwanted child, would also have blood on its hands. The Victorian ballad writer described her as a bad woman, but this was a huge understatement. It is not known how many poor children she cruelly murdered for gain, or how many desperate mothers placed their trust in her. This is the story of Amelia Dyer and the times she lived in, from the moment she was born till the day she died. As the story unfolds you will determine for yourself what set her on her evil path, and if she truly was a Fearful Product of the Times. World wide press coverage of the case at the time, brought about legislation that would finally put to an end the activities of one such as Amelia Dyer.
