

Dreaming of Dragons

As the presence of old lovers, new friends and deadly dragons causes cracks in their foundation to form, Mordred and George must discover how far they're willing to go to save their love and their world. Lovers for centuries, Mordred and George's relationship is strong enough to withstand anything-or so they thought. With dragons and magical creatures appearing every day, George risks everything, even to the point of losing his lover, to maintain the balance between the Realm of Dreams and the human world. Mordred can see George slipping away and, for the first time in his long life, insecurity creeps in. As the presence of old lovers, new friends and deadly dragons causes cracks in their foundation to form, Mordred and George must discover how far they're willing to go to save their love and their world.
