

Software Architecture: First European Conference, ECSA 2007, Madrid, Spain, September 24-26, 2007, Proceedings (Lecture Notes in Computer Science / Programming and Software Engineering)

This book constitutes the refereed proceedings of the First European Conference on Software Architecture, ECSA 2007, held in Aranjuez, Spain. The 12 revised long papers presented together with four short papers cover description languages and metamodels, architecture-based code generation, run-time monitoring, requirements engineering, service-oriented architectures, aspect-oriented software architectures, ontology-based approaches, autonomic systems, middleware and web services.
