

## Gender, Dating and Violence in Urban China (Routledge Culture, Society, Business in East Asia Series)

IMAGE NOT AVAILABLE

This book explores young peoples experiences of, and views on, dating, gender, sexuality, sexual hegemony and sexual violence. Based on interviews and focus groups conducted in Beijing over a long period, and focusing especially on dating violence, the book reveals insights on a wide range of issues. It shows how young Chinese peoples attitudes are changing as urban China develops rapidly, and how these attitudes are affected by age, race, location and class.
