

Kill Me Before I Die: A Zombie Novella

Ever wonder what happened to the dead people in zombie movies. How did they get there? Whats their story? Amy Kidd presents five stories about the bodies found during a zombie apocalypse and ties the stories together with a survival story all her own. Excerpt - Whats the best way to spread a virus? Kissing, coughing, and general conversation can spread it through human contact. An interesting way to spread a virus is to put droplets of it on the DVDs rented by millions. One small video store caters to thousands of people who rent millions of movies a day. Tainting ten movies could cause an epidemic. Tainting a hundred could cause the end of the world.

4-Star **** Review on Smashwords --- Well it is what it is....all about zombies. But very well written. All the stories stop just in the right places to combine in the end. It is worth paying .99 cents for.
