

Cupids Archer (A Cupid/Archer Mystery Book 2)

A wedding and a medieval festival. A murder. A cast of likely suspects. Its murder in the Roaring Twenties Jazz Age. The world is changing faster than the speeding trains that crisscross the country. The 1920s are a dangerous time. Booze is illegal, and mobsters are making a killing off it during the Prohibition Era. The good times are in high gear. But is it all a facade, a house of cards? Its a murder mystery! Jack Delancy is a high-roller who appears to have it all: a mansion, a family, and even a moll on the side. He owns automobiles and a stable of race horses. He has his fingers in a speakeasy and other lucrative and shady enterprises. He spends his fortune as if money is free and there is no tomorrow. But there is always tomorrow. Cupids Archer is a detective mystery story that is the second in the Cupid/Archer Series a historical, fun series of murder mystery books set in the early 20th century. Follow private detective Florian Valentine Flix and his sidekick, Phalen Archer, in this fun whodunit 1920s mystery series as they try to solve this crime and bring a murderer to justice. Q & A with the Author Q - Why did you decide to write the Cupid/Archer series? A - World War 1 was such an interesting time in history. Nothing like the scale and technological inventions of war had been seen before. And it ended right on the heels of the Roaring 20s and the dawn of the Jazz Age. This was a time of great change, too. Not to mention the tremendous divisions caused by Prohibition. When the government made alcohol illegal, it opened the door for corruption. This was the era of the gangsters, like Al Capone. As a fiction author, this historical period was ripe. So many interesting things were happening. I wanted to capture some of this in my work. But I wanted my readers to have fun. The idea of a private investigator and his side kick solving a murder mystery seemed like a wonderful way to accomplish this. Q -

How do you feel when readers read your books? A - I am honored. In this hectic world, time is such a valuable asset. To have folks reading my work, enjoying it, losing themselves in the different worlds I have created is something that I do not take lightly. Giving my readers a pleasurable experience makes me strive to make each novel better than the one before. It is humbling and amazing, all at the same time. I am grateful to every one of my readers who have downloaded each one of my books.
