

Kissed by Reality

Falling in love is hard. Falling in love on national television is impossible. Right? Leighton Aldridge did not sign up to meet her soulmate. She signed up for the lights, camera and action. So when the Hollywood-native ends up with the wounded war veteran and a ring on her finger, its a surprise to everyone. What isnt a surprise is the way she breaks Finn Wyatts heart, or the massively public breakup that follows. But a year later shes back, ready for another round on the reality TV show that brought them together. She knows he was the real thing, and shes ready to fight for him. Finn is the new Mr. Right. The countrys favorite single guy, and the object of 25 womens affections. But when his ex-fiance steps onto set and back into the limelight, he wishes he never agreed to another season. Leighton shattered his heart for the world to see, and hes not ready to face that reality. Can Leighton convince him, and America, that shes the one? Or will her future with Finn only consist of 15 more minutes of fame?
