

## The \$ix Figure Deal - An Armina Fatale Trilogy

Honour among thieves is thoroughly tested after the leader of a close-knit team of sophisticated career criminals cuts a deal to get out of the business for good. But when his family is kidnapped and one of the team members disappears with the money, promised to his employer, for his payout. He soon discovers getting out may have cost him more than staying in as they all find themselves not only trying to discreetly outmaneuver each other but various unforeseen forces that want them all dead.
