

## Challenging Andie

Jaded war correspondent Ryan Armstrong reports terrible events without letting them pierce the armor covering his heart. When his colleague Emily Harte is murdered, he feels responsible for her death, and travels to England to return Emilys effects to her daughter. Bereaved, primary school teacher, Andie Harte has set herself a list of challenges to prove she can be as brave as her recently murdered mother, but when shes hounded by the press the need to escape means she must accept help from Ryan. During their time in seclusion, attraction blossoms into an affair. Their relationship was only supposed to be a fling. When the time comes for Ryan to return to Bekostan, can she risk loving a thrillseeker, or is that a challenge too far? Ryan avoids love, knowing the pain losing it can bring. A life without Andie is sensible, but is it possible? Heat rating: spicy
