

Making Babies

Chloes Donor: Chloe Simon has a problem. The semen she received did not belong to her selected donor, a sensitive patron of the arts. It belonged to a special operations soldier who only banked his sperm in case he and his mission blew up. Now Dev Gallagher is back, staking a claim on their unborn child. He wants to marry her, enjoy some buried to the hilt sex, and then divorce her after the babys birth. Her head says no, but her heart and hormones scream an orgasmic yes! The hormones win. Chloe opts out of the marriage proposal, but opts in for a trip to his mountain cabin for the promised mind-blowing sex. Rating: Carnal. Fulfillment: The Hawaiian conference was the ideal setting to implement Christians just slightly odd plan. It coincided fortuitously with the peak of Carlys fertility cycle. They could do the deed, protect both their reputations and their jobs, and no one would be the wiser-Carly would have the baby she wanted, and her anonymous donor could remain unknown. Carly had doubts the plan would work, but she had no inkling just how bizarre a turn her quest for a gene donor could take. She certainly hadnt anticipated that she would end up in the bed of the one man she most definitely didnt want to know about her plans-her boss. Rating: Spicy/Carnal. Adult situations and language. Genre: Contemporary Erotic Romance.
