

The Supernatural Collection, Volume One

The supernatural has always spoken to the primordial passions within us. Monsters, gods, demons, fae...they each represent what we cannot be without social rebuke--virility unleashed. The tales within this collection are depictions of this unashamed sensuality. They represent times and places where the supernatural world and ours coexist, and where the passions that drive the inhabitants of that magical world seep into the material. What would you do if you came face to face with a vampire? If you were ordered to broker a deal between gods? If you were trapped in a relationship with a hot, rich magician? Or if you finally cornered your prey and could do anything that you wanted to him? If you free the libidinous drummer in your chest, you might succumb to desire, too.
