

## Missys Gentle Giant

(Never judge a book by its cover or an author by one book.) Missy Sanchez gave up dreams of college and marrying her pen pal, Charger after she was kidnapped and raped. The trauma left her with psychological damage and deaf.

Ben Charger Spinelli, DEA undercover agent, volunteers to answer a call for help from his friend, Gonzalo Sanchez, because cocaine has been found on Sanchezs trucks.

On his way there, Ben stops to help a girl with car trouble and is instantly smitten, and when Ben finds out shes Missy Sanchez, his former pen pal, hes determined to make her his. The

problem? He needs to do several things, like: 1) find out who is pushing coke through Sanchez trucks, and catch whoever is doing it; 2) find a way to get Missys nine brothers to like him rather than try to kill him; 3) find out why shes psychologically deaf. (He was sure she jumped when he honked his horn.); 4) find out how to fix her problem and convince her to want to be his; 5) get Gonzalo to help him with their Mexican customs and convince her family to allow her be his. Ben groaned when he realized he just may have to fight her nine big brothers who are protecting her from guys like him before he can even get close to her. The lucky thing is hes from an Italian family, has many job and financial resources as well as total determination. Besides, no one said getting what he wanted would be easy. 82,000 words, 150 pages.
