

Monsters:Monsterstories for Kids

Monsters ! Here is a collection of five timeless childrens stories. Monsters and things that go bump in the night have been frightening children for ages, but has anyone ever really looked at the whole picture? Are things really as they seem or are these beliefs something we invented without thinking about how it impacts someone else? Inside the pages of this anthology, you will find stories that are sure to open your eyes to whats right and whats wrong when you pass judgment without thinking of ones feelings. From a young boys discarded toys to a seemingly frightening eggsnatcher that wreaks havoc on those around him, these stories will tug at your heartstrings and will enlighten you as to what happens when you say or do things that you dont really mean. There are consequences to our actions and like young Henry in I Hate These Toys, words really do matter. Or, Lily in Lily Gets A Good Scare, she learns all too well what its like to be frightened by someone she trusts. Lotus Flower and the River Monster details what it must be like when you make assumptions and set out to keep everyone away from your place. Mrs. Snork and The Pigeons and the Eggsnatcher will teach you that just because something seems to be a certain way, doesnt mean that it is. Inside the pages of these stories, you will find stories that teach life lessons to children and adults. They are sure to resonate with all readers and all living things. Taking into account how one feels, will do wonders for you and for the world as a whole. There is beauty in everything and everyone around us, if you just stop to take a moment and let it be.
