

Mother Country: Memoir of an Adopted Boy

When Jeremy Harding was a child, his mother, Maureen, told him he was adopted. She described his natural parents as a Scandinavian sailor and a little Irish girl who worked in a grocery. It was only later, as Harding set out to look for traces of his birth mother, that he began to understand who his adoptive mother really was and the benign make-believe world she built for herself and her little boy. Evoking a magical childhood spent in transit between west London and a decrepit houseboat on the banks of the River Thames, *Mother Country* is both a detective quest, as Harding searches through the public records for clues about his natural mother, and a rich social history of a lost London from the 1950s. *Mother Country* is a powerful true story about a man looking for the mother he had never known and finding out how little he understood the one he had grown up with.
