

## Magingenio I: The Labyrinth of Riddles (Volume 1)

Lucas Wizard is the current generation of a long lineage of wizards known as the Wizards of the Light. He who must beat the current dark magic leader, Demetrius Dark, and so finish a war that has been active since centuries. To complete his mission, Lucas will have to enter the Labyrinth of Riddles, a series of time trials that replaced the bloody battles, since no magic force did get the victory through them. The common citizens of the white magic won't have powers until that one of the Wizards of the Light reaches to solve the last riddle of the Labyrinth, something that no one of them has done before. And also, the teenager has no descendants, which means that maybe there won't be another chance to try to win the war. It will be possible to reach it this time?
