

## Project: Daddy

When Mac Weston found himself the guardian of his sisters children, he knew he was in trouble. He was a man who worked so hard he barely had time to look after himself, let alone a pair of mischievous toddlers. Which was why he hired Paris Barbour as the new nanny Paris could see straightaway that Mac adored the children he just didnt know how to show it. What he needed, she decided, was to learn how to be a daddy. But during his lessons, was Mac going to realize he was also ready to be a husband?
