

## Donnys Inferno

From award-winning author P.W. Catanese comes a fascinating novel about a twelve-year-old boy who must prevent the new kinder, gentler underworld from returning to its previous terrifying incarnation. Twelve-year-old Donny Taylor was rescued from certain death in a burning building. His savior, a mysterious girl named Angela Obscura, seems to be able to walk right out of the flames. Although she appears to be a teenager, Angela is actually an ancient dignitary from the underworld who needs the help of a mortal. And she's chosen Donny. Hades, a bizarre, cavernous world that was once filled with pitchforks, fiery pits, and tortured souls, has recently become a kinder, gentler place where people can contemplate their transgressions rather than face eternal punishment. Now known as Sulfur, the underworld went through a period of reformation punctuated by a violent revolution that left the vicious old guard, the Merciless, defeated and imprisoned. But it soon becomes apparent that the Merciless are plotting a comeback. If they succeed, they will reignite the long-extinguished Pits of Fire with a billion souls inside. And reformers like Angela and Donny will face Annihilation: the utter destruction of the consciousness and the soul, a nothingness more final than death itself. With everything on the line and billions of souls to protect, Donny, a mortal and outsider, becomes the key to the underworld's salvation and the only one who can save Sulfur.
