

Protecting the Enemy

Julianna Fox was made for her job. Or so she is told. The only memory Julianna has of her past is after the explosion. She was a nameless victim until a man pulled her out of the darkness and gave her new life. A new purpose, because anything is better than being no one. When she is about to eliminate her next mark something stops her. The moment Julianna makes eye contact with Reid Castleton, she has a flashback of her forgotten past. How does she know the man? And why can't she follow through with her assignment? Expert assassin, Reid Castleton, has been told to kill the only woman he ever loved if he wants to live. When he finds his fiancée, he can't go through with the hit, even if it means losing his own life. Either she can't remember who she is or is damn good at acting. Neither one knows who to trust. Both make a truce until they can find out why the leader of ETE 7 wants them both dead. What they uncover is a long line of lies and deception that started the moment Julianna was conceived. Will love conquer all or will fear make them do the unthinkable? Categories: Dark, Protector, CIA, Killer, Assassin, Undercover, Agent, Crime.
