

# Psych

What is Neuro-Linguistic Programming? Dr. Stephanie Walker knows what it is and how to use it. In fact, she murders people with it. As a psychiatrist, Dr. Walker works with her very wealthy clients by taking control of their unconscious mind, enabling her to manipulate and guide their every action. After she moves a great deal of their wealth to her own private investments, her clients then commit suicide creating the perfect robbery and murder. Detective Joe Stanton of Cleveland Police Department smells something rotten in a series of suicides among wealthy businessmen in the Ohio area. Joe digs into cases discovering the smell may be coming from one Dr. Stephanie Walker. Joe now pits his thirty years of experience against one of the brightest and most devious minds he ever encountered; clever enough to even control his thinking. In the midst of this, Dr. Walker has a new client whose very life depends on how quickly someone can shut down Walkers operation. With twist and turns exploring every dark corner of intrigue, this is a nail bitter to the last unpredictable page.
