

Casually Enchanted (Enchanted Hearts Series Book 1)

Simon Tansley has made a vow. No woman is ever going to hurt him and take advantage of him again. No matter how much a woman claims to care about him, he is never going to find himself the fool. Mind games and magic have allowed Simon to add more than a few notches to his belt since he was burned badly by the woman of his dreams, and as far as Tansley is concerned this is only the beginning. As long as he can do it, Simon will look for women that he can use, and eventually cast aside. At least that was the plan, until he met Abigail Grant. Abigail Grant was not looking for love. A casual hook up is all that she cared to have. When she found herself interested in a man, she prepared for a one night stand, with every intention of forgetting him the next morning. Furthermore, Abby knew full well she would repeat the cycle with the next man who caught her fancy, and the next man after that. However, when both Simon and Abigail's worlds finally collided, each of them had second thoughts about the games they played with people's hearts, as they felt a stirring within their own hearts that was impossible to ignore. To complicate matters, Simon and Abigail are both members of rival magical houses, making their union of love difficult if not downright forbidden. Simon belongs to a Magical Order circulating around the conjuring of sacred flames, a type of magic forbidden to Abigail's conservative ancestors, who make a pledge to use their abilities only for healing and defense, and never to make use of the element of fire, under any circumstances. Could it be possible that Simon and Abigail could find more than casual sex to draw them together? What has happened that Abigail and Simon no longer feel in control of themselves? Could they be falling in love, or are they just casually enchanted?
