

Sex in History

SEX IN HISTORY chronicles the pleasures- and perils- of the flesh from the time of mankind's distant ancestors to the modern day; from a sexual act which was bried, crude and purposeful, to the myriad varieties of contemporary sexual mores. Reay Tannahill's scholarly, yet accessible study ranges from the earliest form of contraception (one Egyptian concoction included crocodile dung) to some latter-day misconceptions about it- like the men who joined their lovers in taking the pill just to be on the safe side. It surveys all manner of sexual practice, preference and position (the acrobatic wheelbarrow position, the strenuous hovering butterflies position...) and draws on sources as diverse as THE ADMIRABLE DISCOURSES OF THE PLAIN GIRL, the EXHIBITION OF FEMALE FLAGELLANTS, IMPORTANT MATTERS OF THE JADE CHAMBER and THE ROMANCE OF CHASTISEMENT. Whether writing on androgyny, courtly love, flagellation or zoophilia, Turkish eunuchs Greek dildoes, Taoist sex manuals or Japanese geisha girls, Reay Tannahill is consistently enlightening and entertaining.
