

The Camping Trip

The Camping Trip is about two boys, Dave and Billy ages 12 and 13 who go on a camping trip alone for the first time. They run into situations and have to deal with them with the help of a mysterious Indian. It teaches that in life there are decisions to be made; some easy, some hard; some right, some wrong. Some lessons to be learned: how to adjust to different situations in life, to listen and learn, appreciate what you have, take responsibility, stay young at heart, take care of the environment, stay busy, make your own fun, and have courage and common sense.

The Camping Trip doesn't just entertain; it makes you think. So find a comfortable, quiet spot, sit back and go on an adventure with Dave and Billy.
