

The Eighth Night

Fresh off months of round-the-clock work launching his company's first successful video game, Kai gives up a celebratory vacation with friends in order to spend Chanukah with his parents. Instead, he finds himself home alone pet sitting their ankle-biting dog. Upset and lost in his thoughts about being misled, he doesn't notice his old friend Ari standing next to him in the elevator until they're trapped during a power outage. Hours of conversation to stave off panic lead to an invitation to spend the holiday together. Disowned by his religious family, Ari has never second-guessed his decision to become an escort. That is, until Kai treats him like a boyfriend instead of a boy toy. Now he has eight nights with his former crush before he needs to come clean. And then he'll need to say goodbye, because it's going to take a miracle for Kai to accept what Ari was doing in his building that first night.
