

The Gaudi Facade

Adam Sheldrake, a young British architect travels to Barcelona for what should be a fairly ordinary holiday. By chance, he meets a beautiful, talented, twenty-seven year old Italian artist, Caterina Fonteras at the Olympic Stadium and, from this point, the holiday turns into a life-changing experience for both of them. With a common interest in Antoni Gaudi, the famous Spanish architect, they visit the Sagrada Familia and are drawn into a world of violent fanaticism, resulting in their capture and imprisonment. This romantic thriller, set in the year 2012 leads the reader into many twists and turns, a major threat to the Catholic faith and some quite extra-ordinary revelations. Interestingly, whilst written three years ago, The Gaudi Facade contains a reference to David Cameron being the Prime Minister, a prediction that in May 2010 came true.
