

The Life and Diary of David Brainerd

A major influence on the domestic and foreign missionary movement of the eighteenth and nineteenth centuries, The Life and Diary of David Brainerd is Jonathan Edwards biography of David Brainerd. David Brainerd was an 18th century colonial American missionary. During the last five years of his lifetime, which was tragically cut short by tuberculosis at the age of twenty-nine, he traveled over three thousand miles on horseback in order to spread the word of the bible to the native peoples of America. Brainerds life was one of hardship. Orphaned at the age of fourteen, Brainerd suffered from a deep depression that was at times immobilizing. The tuberculosis that killed him which is believed to have been contracted some seven years earlier while he was a student at Yale was only made worse by the harsh wilderness lifestyle that his missionary work demanded. Jonathan Edwards substantially edited his diary for publication and published it posthumously in 1749; ever since it has been a source of inspiration for Christian missionaries the world over.
