

The Secrets to Speaking to your Destiny and Causing it to Manifest: How to Use the Power of Your Self-fulfilling Prophecy

With a combination of partial voice in scholastic, scientific, philosophical, inspirational and religious writing, enclaved with a cutting edge smoldering with idealism, Musa Joel, Winner of Academy Scholarship Award, unveils the power of your self-fulfilling prophecy - the art of speaking to your destiny, demanding the best out of it and declaring it into manifestation! So its time to stop leaving your destiny to chance and allowing the negative assumptions of the significant adults in your life betray and control your destiny. Too often, these assumptions or prophecies, like nuclear weapons, ballistic missiles, rocket launchers, unilateral disarmaments, war machines and more, reflects the reasons why youve hitherto submitted to fear, uncertainty, failure and had continue to revolve within your own limiting orbits! This book will show you the tragedy of how many of us are familiar with the wonders of modern science and technology, ancient antiques , scientific and archaeological discoveries that have outlasted so many centuries, generations, nations, and races and yet, are grossly unaware and totally unfamiliar with the immense power we possess to withstand the most daunting challenges of life. The principal audience of this book is people who, in order to succeed, must be able to influence and convincingly communicate to their destiny. It has been written and designed for the religious and the unchurch people, and those who aspire to unravel the mystery of their complex nature, far more than the atom and nucleus, or the unity and beauty found in nature. Like the wonders of science, it talks more about the intricate wonders of your nature, your complexity, your creative mind, your will power and more. As the scientist sit in his laboratory, peering through the microscope to document his findings, in The Secrets to Speaking to Your Destiny and Causing It to Manifest, you will peers through your

design nature and discover the mystery of your make up more than the mystery of technical advancement. Every line in this book will lead to the unfolding of your glorious destiny into your glorious security! This book is about changing destiny and enforcing the mind of God into your future.
