

## The Time Thief

The Time Thief is one of those rare books in which each of the five main characters take on a true cause of their own: Professor Royale, whose theories on time are unique and provocative, will make the reader reevaluate their own concept of time. The professor's father, Marvin, Sr., seeks the sweet release of death, dances with a skeleton and sees God. The professor's caretaker, Mildred, discovers her true purpose wasn't exactly what she expected. Professor Royale's favorite students; Jacob, who decides to put words into action, and his girlfriend, Sarah, who puts action into words and manages to end the Iraq War peacefully. This book will clean out the cobwebs in your mind and leave you with a fresh new perspective on life.
