

# Theories in Nursing Administration

This text book is designed to highlight the concepts of theories, principles of leadership and management in nursing practice and education. It introduces the steps of management process and leadership styles which would enable the nurse students and personnel to develop an insight to provide quality nursing care and education in any health care and educational center in the country to suit the societal needs. It also provides comprehensiveness in understanding the role of a nurse as a manager. This book also helps undergraduate and postgraduate students as well as novice teacher to acquire skills in planning and implementing the curriculum.
