

## Tuesdays Child: A Memoir

Mary Ashun's *Tuesdays Child* is the story of a girl born in the small West African country of Ghana. She has big dreams, a large boisterous, extended family and a tendency towards asking questions that children, especially girls aren't supposed to ask. Boarding school days, interminable church services and a famine that leaves her thin enough to be an 80s model are all narrated with such candid humor that it's hard to believe there were any scars. Now older, wiser, with a family of her own and living in North America, she embarks on a journey back to Ghana. The mission: to make peace. Who with? The answer might surprise you and this is why this is balanced African storytelling at its best!
