

Vietnam and the World: Marxist-Leninist Doctrine and the Changes in International Relations, 1975-93

Vietnam and the World is a comprehensive book on Vietnam's international relations since 1975. It is also a study on the development of Marxist-Leninist doctrine in Vietnam. With its special reference to foreign policy, the book examines how formalist Marxist-Leninist rhetoric penetrated traditional pragmatically oriented Vietnamese thinking. By using previously unexploited Vietnamese material, the author pinpoints the development of Vietnamese doctrine vis-a-vis pragmatism and formalism and analyzes the line pursued by Vietnam during the radical changes in international relation between 1975 and 1993.
