

## A PERSONAL RECORD. (Annotated)

Books may be written in all sorts of places. Verbal inspiration may enter the berth of a mariner on board a ship frozen fast in a river in the middle of a town; and since saints are supposed to look benignantly on humble believers, I indulge in the pleasant fancy that the shade of old Flaubert who imagined himself to be (among other things) a descendant of Vikings might have hovered with amused interest over the docks of a 2,000-ton steamer called the Adowa, on board of which, gripped by the inclement winter alongside a quay in Rouen, the tenth chapter of *Almayers Folly* was begun. With interest, I say, for was not the kind Norman giant with enormous mustaches and a thundering voice the last of the Romantics? Was he not, in his unworldly, almost ascetic, devotion to his art, a sort of literary, saint-like hermit? It has set at last, said Nina to her mother, pointing to the hills behind which the sun had sunk. . . . These words of Almayers' romantic daughter I remember tracing on the gray paper of a pad which rested on the blanket of my bed-place. They referred to a sunset in Malayan Isles and shaped themselves in my mind, in a hallucinated vision of forests and rivers and seas, far removed from a commercial and yet romantic town of the northern hemisphere. But at that moment the mood of visions and words was cut short by the third officer, a cheerful and casual youth, coming in with a bang of the door and the exclamation: You've made it jolly warm in here. It was warm. I had turned on the steam heater after placing a tin under the leaky water-cock for perhaps you do not know that water will leak where steam will not. I am not aware of what my young friend had been doing on deck all that morning, but the hands he rubbed together vigorously were very red and imparted to me a chilly feeling by their mere aspect. He has remained the only banjoist of my acquaintance, and being also a younger son

of a retired colonel, the poem of Mr. Kipling, by a strange aberration of associated ideas, always seems to me to have been written with an exclusive view to his person. When he did not play the banjo he loved to sit and look at it. He proceeded to this sentimental inspection, and after meditating a while over the strings under my silent scrutiny inquired, airily: This edition includes: - A complete biography of Joseph Conrad. - Table of contents with direct links to chapters.
